Jan. 14th - school play Beauty and the Beast

Winter break is Dec 21st thru Jan. 4th. Return on the 5th

Dear Parents:

I want to bring to your attention what a terrific job our teachers are doing this year. They are up against some serious challenges from both budget cuts and increased class size. But their commitment to your student receiving the best education still remains at the center of their efforts. We here at Komure are very lucky to have such a talented and dedicated staff.

Paying for lunches

You may also pay for lunches on line at the district website. www.MantecaUSD.net, on the right hand side, called eFunds lunch box.

Due to health concerns with the flu, do not send your child to school sick. We will send them back home.

Basketball season begins the second week of January. Please attend the games and show Komure spirit. Remember that students cannot attend alone, they must have a parent stay with them.

Win a car raffle tickets.

Sponsored through the county office of education, this fund raiser will help continue the 5th grade science camp. The school gets all the money from our sale of tickets.

The car is a small electric car called a GEM car. It is being donated by a Cabral Chrysler Jeep.

Tickets are only \$5.00 and can be purchased in the school office.

PTC – Parent teacher club news

- Do you have any unused children's coat? If so send the clean coat to the school to be used in the coat drive ending December 16th.
- We want to do a special recognition of Michelle Martinez, a parent volunteer that comes to the school every day to help sell the snacks after school. She also volunteers in the office and in the classroom on a regular basis. Additionally, she works with Laurie Edwards and the PTC spearheading all of their events.

Attendance extension for calling in absences is 59736

Yearbook sales are ongoing and the cost is \$28.00 each. Order now before it goes up.

Thank you for all your help and support with our new tardy policy. We are seeing a noticeable reduction in the number of student's late, which translates into better grades.

Who can we call if your child is ill if we do not have good phone numbers?

We still do not have updated emergency cards on all of our students. Always keep your card updated.

The magazine fund raiser earned a couple of thousand dollars for the school. Thank you for your support, all the money will go directly to student activities.

Does your student need help with 7th grade math or Algebra?

They can get the entire book and all lessons taught on-line with video streaming. Go to www.go.hrw.com and then in the bottom left corner a box asks for the key word. The keyword is located in the math book at the top of many of the pages. It has a blue globe with a red arrow around it. Type in the homework code. This code will be different for each chapter or lesson. Now you can have the whole lesson taught again, do practice, games, etc. and there is parent help information.
